

PROREIT named among top performers on TSX-V

PRO Real Estate Investment Trust (“PROREIT” or the “REIT”) (TSXV: PRV.UN) is pleased to announce its first-time ranking on the 2019 Venture 50 which celebrates the strongest performances on the TSX Venture Exchange (the “Exchange”) over the last year. Comprised of 10 companies from each of five industry sectors, the ranking recognizes the strongest businesses on the Exchange based on market capitalization growth, share price appreciation and trading volume amount.

“After five years of solid growth since our foundation in 2013, this recognition is a great achievement for the PROREIT team. We are very proud of the value we have created for our unitholders,” said James W. Beckerleg, President and Chief Executive Officer. “Over this time period, we grew our portfolio of properties from \$6.1 million in early 2013 to over \$500 million at the end of 2018 and our net comprehensive income and net operating income^[1] for the 9-month period ended September 30, 2018 to \$12.3 million and \$18.4 million, respectively. We have also generated an attractive yield and consistent, uninterrupted monthly distributions since January 2014.”

PROREIT achieved key milestones during 2018:

- Now present in 9 Canadian provinces with 84 properties across Canada.
- Continued expansion and increasingly diversified portfolio, both in terms of asset class and geography.
- Built a solid acquisition pipeline.
- Completed two equity financings totalling \$69.1 million, including large banking groups.
- Acquisition of property management platform and well-advanced on proposed internalization of asset management, both strategically important initiatives that should lead to greater value for unitholders.

“Our objective is to build a mid-cap diversified commercial REIT in Canada, and we are on our way to achieving this goal. We are well positioned to reach our next stage of growth with a clear strategy to expand earnings and net asset value to the benefit of our unitholders,” concluded Mr. Beckerleg.
