Consolidated Statements of Changes in Unitholders' Equity	3
Consolidated Statements of Cash Flows	4
Notes to Consolidated Financial Statements	5 - 26

To the Unitholders of Pro Real Estate Investment Trust:

Opinion

We have audited the consolidated financial statements of Pro Real Estate Investment Trust and its subsidiaries (the "REIT"), which comprise the consolidated statements of financial position as at December 31, 2025 and December 31, 2024, and the consolidated statements of net income and comprehensive income, changes in unitholders' equity and cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the REIT as at December 31, 2025 and December 31, 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with IFRS® Accounting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the REIT in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Investment properties - Valuation

Key Audit Matter Description

Investment properties are measured at fair value and totalled \$1,051,660,000 as at December 31, 2025, which represented approximately 98% of total assets.

Fair value is determined using valuation techniques and assumptions which consider in most cases estimates of projected future cash flows from the properties and estimates of suitable discount rates for these cash flows. Valuation techniques for real estate can be subjective in nature and involve various assumptions regarding pricing factors. These assumptions include, among others, capitalization rate, market rental income, market-derived discount rate, inflation rate, projected net operating income, vacancy levels and estimate of the terminal capitalization rate. When possible, fair value is determined based on recent real estate transactions with similar characteristics and location of the valued properties. Because the valuation of investment properties is complex and highly dependent on estimates and assumptions, we consider the valuation of investment properties as a key audit matter in our audit.

Refer to Note 3 Material accounting policy information, Note 4 Critical accounting judgments, estimates and assumptions, Note 6 Investment property acquisitions and Note 7 Investment properties, for disclosures regarding the REIT's policy for accounting for investment properties and further information on the composition of investment properties.

Audit Response

We responded to this matter by performing procedures over the fair value of investment properties. Our audit work in relation to this included, but was not restricted to, the following:

- We gained an understanding of management's valuation process;
- We examined management's estimate of the fair value of investment properties, which included examining appraisal reports provided by management to support the values as well as management's internal assessments of fair values of properties where external appraisals were not obtained or updated in the current year;
- We involved real estate appraisal specialists to assist us with the audit of the valuation of the investment properties based on their specific experience and knowledge in local markets;
- We evaluated the external valuator's expertise, independence and methodology used for the valuation;
- We evaluated the key assumptions included in the valuations (such as capitalization rate, stabilized net operating income, vacancy levels, rent-free periods, tenant allowances and renewals);
- We assessed that the professional appraisers used by the REIT are firms with suitable qualifications and considerable experience in the Canadian market;
- We agreed the significant data applied for valuation purposes to supporting documentation; and
- We assessed the appropriateness of the disclosures relating to the assumptions used in the valuations and sensitivity analysis in the notes to the consolidated financial statements.

Other Information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated. We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the REIT's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the REIT or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the REIT's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the REIT's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the REIT's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the REIT to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the REIT as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Melanie Wiseblatt.

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

1. Nature of operations

PRO Real Estate Investment Trust (the "REIT") is an unincorporated open ended real estate investment trust established under the laws of the Province of Ontario pursuant to a declaration of trust dated February 7, 2013 and amended and restated on December 21, 2018 (as amended from time to time, the "Declaration of Trust").

The REIT's trust units ("Units") are listed on the Toronto Stock Exchange (the "TSX") under the symbol PRV.UN. The REIT's convertible unsecured subordinated debentures ("Convertible Debentures") are listed on the TSX under the symbol PRV.DB. The principal, registered and head office of the REIT is located at 2000 Mansfield Street, Suite 1000, Montréal, Quebec, H3A 2Z7.

2. Basis of presentation

The consolidated financial statements have been prepared in accordance with IFRS[®] Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The consolidated financial statements have been prepared on a historical cost basis with the exception of investment properties, derivative financial instruments, Class B LP Units (as defined herein) and units under the long-term incentive plan, which are measured at fair value.

The REIT's reporting and functional currency is Canadian dollars.

These consolidated financial statements include the financial statements of the REIT and its subsidiaries, including joint operations and partnerships over which the REIT has control.

(i) Subsidiaries and partnerships over which the REIT has control:

Control is present when the REIT has all the following:

- (a) power over the investee;
- (b) exposure, or rights, to variable returns from its involvement with the investee; and
- (c) the ability to use its power over the investee to affect the amount of its returns (the power, directly or indirectly, to control the financial and operational policies of the controlled entity).

(ii) Joint operations:

A joint operation is a type of joint arrangement whereby the parties that have joint control of the arrangement have the rights to the assets and the obligations for the liabilities relating to the arrangement. The REIT recognizes its rights to and obligations for the assets, liabilities, revenue and expenses of these joint operations in the respective lines in the consolidated financial statements.

On consolidation, all inter-entity transactions and balances have been eliminated.

These consolidated financial statements were authorized for issuance by the Board of Trustees of the REIT on March 4, 2026.

3. Material accounting policy information

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated.

Property acquisitions and business combinations

Where property is acquired, management considers the substance of the assets and activities acquired in determining whether the acquisition represents the acquisition of a business. The basis of the judgment is set out in Note 4.

Where such acquisitions are not judged to be an acquisition of a business, they are treated as asset acquisitions. The cost to acquire the property is allocated between the identifiable assets and liabilities acquired based on their relative fair values at the acquisition date, and no goodwill arises.

Where acquisitions are judged to be businesses, they are accounted for using the acquisition method. The acquisition is recognized at the aggregate of the consideration transferred, measured on the acquisition date at fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the REIT measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs are expensed in the consolidated statements of net income and comprehensive income.

When the REIT acquires a business, it makes an assessment of the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. If the business combination is achieved in stages, the acquisition date fair value of the REIT's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date through the consolidated statements of net income and comprehensive income. Any contingent consideration to be transferred by the REIT will be recognized as a liability at fair value at the acquisition date. Subsequent changes to the fair value of any contingent consideration are recognized in the consolidated statements of net income and comprehensive income.

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

Investment properties

Property is determined to be an investment property when it is principally held to earn rental income or capital appreciation or both. It includes land, buildings, leasehold improvements and direct leasing costs incurred in negotiating and arranging tenant leases. The REIT applies IAS 40 – Investment Property, and has chosen the fair value method of presenting its investment properties in the consolidated financial statements.

Investment property is measured initially at cost including transaction costs. Transaction costs include expenses such as transfer taxes, professional fees for legal services and initial leasing commissions to bring the property to the condition necessary for it to be capable of operating. Subsequent to initial recognition, investment property is carried at fair value. Gains or losses arising from changes in fair value are included in the consolidated statements of net income and comprehensive income during the period in which they arise.

The REIT measures fair value in accordance with IFRS 13, Fair Value Measurement. Fair value is the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The fair value of investment properties shall reflect market conditions at the end of the reporting period. Fair value is time-specific as of a given date. As market conditions could change, the amounts presented as fair value could be incorrect or inadequate at another date. The fair value of investment properties is based on valuation methods performed by management and third-party appraisers who are members of the Appraisal Institute of Canada.

Payments to tenants under lease obligations are included in the carrying cost of the investment properties. Payments that are determined to primarily benefit the tenant are treated as tenant incentives and are amortized as a reduction of rental revenue on a straight line basis over the term of the lease.

Property and equipment

Property and equipment is carried at historical cost less accumulated depreciation and impairment. Historical cost includes expenditures that are directly attributable to the acquisition of the assets.

The REIT allocates the amount initially recognized in respect of an item of property and equipment to its significant parts and depreciates each part separately.

Depreciation of property and equipment is provided over the remaining useful lives of the assets using the declining balance method for furniture and fixtures and computer equipment and on the straight-line method for leasehold improvements as follows:

- Furniture and fixtures – 20%
- Computer equipment – 30%
- Leasehold improvements – over the term of the lease
- Vehicle – 3 to 5 years

Depreciation is determined with reference to the asset's cost, estimated useful life and residual value. Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate and depreciated over their expected useful life. The asset's residual values, depreciation method and useful lives are reviewed annually and adjusted if appropriate. Assets are tested for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable. Impairment is assessed by comparing the carrying amount of an asset to its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use (being the present value of the expected future cash flows of the relevant asset). An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount.

Cash

Cash includes balances with banks and funds held in trust.

Deferred acquisition costs

Deferred acquisition costs include transaction costs directly attributable to asset acquisition of investment properties, where it is probable that the acquisition will be completed.

Financial instruments

Under and subject to the terms and conditions of the Declaration of Trust, the REIT recognizes financial assets when it becomes party to the contractual provisions of the instrument. Financial assets are measured initially at their fair value plus, in the case of financial assets not subsequently measured at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to their acquisition. Transaction costs attributable to the acquisition of financial assets subsequently measured at FVTPL are expensed in the consolidated statements of net income and comprehensive income when incurred.

Financial assets are classified and measured based on the business model in which they are managed and the characteristics of their contractual cash flows. IFRS 9 (Financial Instruments) contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income and FVTPL.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

All financial assets not classified as measured at amortized cost as described above are measured at FVTPL. The REIT derecognizes a financial asset when its contractual rights to the cash flows from financial asset expire.

The REIT recognizes a financial liability when it becomes party to the contractual provisions of the instrument. At initial recognition, financial liabilities are measured at their fair value plus transaction costs that are directly attributable to their issuance, with the exception of financial liabilities subsequently measured at FVTPL for which transaction costs are immediately recorded in the consolidated statements of net income and comprehensive income.

Subsequent to initial recognition, financial liabilities are measured at amortized cost using the effective interest rate method, except for financial liabilities at FVTPL. Such liabilities are subsequently measured at fair value. Interest, gains or losses relating to a financial liability are recognized in the consolidated statements of net income and comprehensive income. The REIT derecognizes a financial liability only when its contractual obligations are discharged, cancelled or expire.

The 'expected credit loss' ("ECL") model is used to determine impairment of financial assets measured at amortized cost, contract assets and debt investments at fair value through other comprehensive income. Expected credit losses are measured to reflect a probability-weighted amount, the time value of money, and reasonable and supportable information regarding past events, current conditions and forecasts of future economic conditions.

Financial assets measured at amortized cost are assessed at each reporting date to determine the credit risk of the financial asset to apply the relevant impairment requirements. There are generally 3 stages of credit risk:

1. Financial assets that are expected to perform in line with their contractual terms and which have no signs of increased credit risk;
2. Financial assets that have significantly increased in credit risk since initial recognition but are not credit-impaired; and
3. Credit-impaired financial instruments.

The REIT assesses whether a financial asset has experienced a significant increase in credit risk or is credit-impaired at the reporting date. Regular indicators that a financial instrument has significantly increased in credit risk or is credit-impaired include significant financial difficulties as evidenced through default or delinquency by a debtor, restructuring of an amount due to the REIT on terms that the REIT would not consider otherwise, or indications that a debtor or issuer will enter bankruptcy. For financial assets assessed as having significantly increased in credit risk since initial recognition or credit-impaired at the reporting date, the REIT continues to recognize a loss allowance equal to lifetime expected credit losses.

An impairment loss in respect of a financial asset measured at amortized cost is measured through a loss allowance at an amount equal to:

- (i) 12 month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- (ii) Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

Losses are recognized in the consolidated statements of net income and comprehensive income and reflected in an allowance account against receivables. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through comprehensive income.

Fair Value Hierarchy

The REIT classifies financial instruments recognized at fair value in accordance with a fair value hierarchy that prioritizes the inputs to the valuation technique used to measure fair value as per IFRS 7 – Financial Instruments: Disclosures. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 ("L1") – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 ("L2") – Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 ("L3") – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Unitholders' equity

The REIT's Units are redeemable at the option of the holder and, therefore, are considered puttable instruments. Puttable instruments are required to be accounted for as financial liabilities in accordance with IAS 32: Financial Instruments: presentation. In accordance with IAS 32, puttable instruments are to be presented as equity when certain conditions, called the "Puttable Instrument Exemption", are met.

To be presented as equity, the Units must meet all of the following conditions required by the Puttable Instrument Exemption: (i) it must entitle the holder to a pro-rata share of the REIT's net assets in the event of the REIT's dissolution; (ii) it must be in the class of instruments that is subordinate to all other instruments; (iii) all instruments in the class in (ii) must have identical features; (iv) other than the redemption feature, the Units may contain no other contractual obligations that meet the definition of a liability; and (v) the expected cash flows for the Units must be based substantially on the profit or loss of the REIT or change in fair value of the Units.

The Units meet the Puttable Instrument Exemption and are classified and accounted for as equity in the consolidated statements of financial position. Distributions on Units, if any, are deducted from unitholders' equity.

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

Convertible Debentures

The Convertible Debentures issued by the REIT are convertible into a fixed number of units at the option of the holder and are redeemable by the REIT under certain conditions. The convertible debentures are separated into their debt component and embedded derivative features which are accounted for separately using the residual value approach. Subsequent to initial recognition, the debt component is measured at amortized cost using the effective interest method. The embedded derivative features include a holder conversion option at any time and an issuer redemption option under certain conditions. The multiple embedded derivative features are treated as a single compound embedded derivative liability and initially recognized at fair value. Subsequent to initial recognition, changes in fair value are recognized in the consolidated statements of net income and comprehensive income. Upon issuance, any directly attributable costs are allocated to the debt component and embedded derivative liability in proportion to their initial carrying amounts.

For the debt component, the financing costs are reflected in the determination of the effective interest rate. For the embedded derivative liability, the financing costs are immediately expensed. Upon conversion, the carrying amount of the debt component and the related fair value of the derivative liability as of the date of conversion are transferred to equity. Upon redemption, the redemption proceeds are compared to the carrying amount of the debt component and the related fair value of the embedded derivative extinguished as of the date of redemption, and any gain or loss on redemption is recognized in the statements of net income and comprehensive income.

Payment of distributions

The determination to declare and make payable distributions from the REIT is at the sole discretion of the Board of Trustees of the REIT, and until declared payable by the Board of Trustees of the REIT, the REIT has no contractual requirement to pay cash distributions to unitholders of the REIT or holders of Class B LP Units.

Derivative Financial Instruments

The REIT uses derivative financial instruments such as interest rate swaps to manage risks from fluctuations in interest rates. Derivative instruments are initially measured at fair value on the date a derivative contract is entered into and subsequently re-measured at fair value at the end of the reporting period. Changes in the fair value of a derivative are recognized as FVTPL unless the derivative is a hedging instrument.

The REIT has entered into an interest rate swap contract to limit its exposure to fluctuations in the interest rates on a variable rate loan. These derivative financial instruments are not designated as hedging instruments for accounting purposes. Gains or losses arising from the change in fair values of the interest rate swap contract are recognized in the statements of net income and comprehensive income.

Class B LP Units

The Class B limited partnership units ("Class B LP Units") of PRO REIT Limited Partnership ("PRLP"), one of the REIT's limited partnerships under control, are classified as "financial liabilities", as they are exchangeable into Units of the REIT on a one-for-one basis at any time at the option of the holder. Class B LP Units are measured at fair value and presented as part of current liabilities in the consolidated statements of financial position, with changes in fair value recorded in the consolidated statements of net income and comprehensive income. The fair value of the Class B LP Units is determined with reference to the market price of the Units on the date of measurement. Distributions on Class B LP Units are recognized in the consolidated statements of net income and comprehensive income when declared.

Long-term incentive plan

The REIT has adopted a long-term incentive plan which provides for the grant of deferred units ("DU" or "Deferred Units") and restricted units ("RU" or "Restricted Units") of the REIT to directors, employees, trustees and consultants of the REIT and its subsidiaries. The RUs and DUs are considered to be financial liabilities in the consolidated statement of financial position because there is a contractual obligation for the REIT to deliver Units upon settlement of the RUs and DUs. As a result of this obligation, the RUs and DUs are exchangeable into a liability as the Units are a liability by definition in accordance with IAS 32 and the Puttable Instrument Exemption does not apply to IFRS 2 – Share-Based Payment ("IFRS 2"). In accordance with IAS 32, the long-term incentive plan is presented as a liability and is measured at fair value in the consolidated statements of financial position in accordance with IFRS 9 Financial Instruments. Fair market value is determined with reference to observable market price of the REIT's Units.

The compensation expense relating to the long-term incentive plan is recognized over the vesting period based on the fair value of the Units at the end of each reporting period and includes additional compensation expense relating to additional DUs and RUs issued as a result of distributions on the underlying Units. Once vested, the liability is remeasured at the end of each reporting period and at the date of settlement, with any fair value adjustment recognized in the consolidated statements of net income and comprehensive income for the period. Distributions declared on vested DUs and RUs are also recorded in the consolidated statements of net income and comprehensive income.

Cancellation of Units under normal course issuer bid

In the event the REIT repurchases its own Units under a normal course issuer bid ("NCIB"), those Units are deducted from unitholders' equity and the associated Units are cancelled. No gain or loss is recognized and the consideration paid, including any directly attributable incremental costs, is recognized in unitholders' equity.

Provisions

A provision is a liability of uncertain timing or amount. Provisions are recognized when the REIT has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a discount rate that reflects current market assessments of the time value of money and risks specific to the obligation. Provisions are re-measured at each financial reporting date using the current discount rate. The amount recognized as provision is the best estimate of the consideration required to settle the present obligation at the statement of financial position date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

Revenue recognition

The total amount of contractual rent to be received from operating leases is recognized on a straight-line basis over the term of the lease; straight-line rent receivable, which is included in the carrying amount of the investment property, is recorded for the difference between the rental revenue recorded and the contractual amount received. Contingent rental income or percentage rents are recognized when the required level of sales has been achieved. Lease cancellation fees are recognized as revenue when the tenant foregoes the rights and obligations from the use of the space. Lease incentives are recognized on a straight-line basis over the term of the lease, even if the payments are not made on such a basis.

Recoveries from tenants for taxes, insurance and other operating expenses are recognized as service charge income in the period in which the applicable costs are incurred. Services charges and other such receipts are included gross of the related costs in property income, as management considers that the REIT acts as principal in this respect. Recoveries for repair and maintenance costs capitalized with investment property are recognized on a straight-line basis over the expected life of the items. Parking and other incidental revenues are recognized when the services are provided.

Segmented disclosure

Segmented disclosure is determined based on internal reports that are regularly reviewed by the Chief Executive Officer and the Chief Financial Officer for the purpose of allocating resources to the segment and assessing its performance. The REIT's segments are managed by use of properties.

Joint arrangements

Under IFRS 11, "Joint Arrangements", a joint arrangement is an arrangement in which two or more parties have joint control. Joint control is the contractually agreed sharing of control whereby decisions about the relevant activities require unanimous consent of the parties sharing control.

Joint arrangements are classified as either joint operations or joint ventures depending on the REIT's rights and obligations in the arrangement based on factors such as the structure, legal form and contractual terms of the arrangement.

As at December 31, 2025, the REIT had interests in joint arrangements that were classified as joint operations.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities, relating to the arrangement. Those parties are called joint operators. The consolidated financial statements include the REIT's proportionate share of the joint operations' assets, liabilities, revenue and expenses on a line by line basis, from the date that the joint control commences until the date that joint control ceases.

Income and capital taxes

The REIT currently qualifies as a "mutual fund trust" for income tax purposes. The REIT expects to distribute or designate all of its taxable income to unitholders and is entitled to deduct such distributions for income tax purposes. Accordingly, except for the REIT's subsidiaries, no provision for income taxes payable is required.

The legislation relating to the federal income taxation of a specified investment flow through ("SIFT") trust or partnership was enacted on June 22, 2007. Under the SIFT rules, certain distributions from a SIFT will not be deductible in computing the SIFT's taxable income, and the SIFT will be subject to tax on such distributions at a rate that is substantially equivalent to the general tax rate applicable to Canadian corporations. However, distributions paid by a SIFT as returns of capital should generally not be subject to the tax. Under the SIFT rules, the new taxation regime will not apply to a real estate investment trust that meets prescribed conditions relating to the nature of its assets and revenue (the "REIT Conditions"). The REIT has reviewed the SIFT rules and has assessed their interpretation and application to the REIT's assets and income. While there are uncertainties in the interpretation and application of the SIFT rules, the REIT believes that it meets the REIT Conditions.

However, certain of the REIT's subsidiaries are incorporated companies. For these companies, the REIT follows the tax liability method for determining income taxes. Under this method, deferred income taxes assets and liabilities are determined according to differences between the carrying amounts and tax bases of specific assets and liabilities. Deferred tax assets and liabilities are measured based on enacted or substantively enacted tax rates and laws at the date of the consolidated financial statements for the years in which these temporary differences are expected to reverse. Adjustments to these balances are recognized in the consolidated statements of net income and comprehensive income as they occur. It was determined that no current or deferred income tax provisions were required for the periods presented in these consolidated financial statements.

4. Critical accounting judgments, estimates and assumptions

The preparation of the REIT's consolidated financial statements requires management to make critical judgments, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities and the disclosure of contingent liabilities, at the date of the consolidated financial statements. The critical estimates and judgments utilized in preparing the REIT's consolidated financial statements affect the assessment of net recoverable amounts, net realizable values and fair values, depreciation and amortization rates and useful lives, determination of the degree of control that exists in determining the corresponding accounting basis and the selection of accounting policies. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities in future periods.

Judgments

In the process of applying the REIT's accounting policies, management has made the following judgments which have the most significant effect on the amounts recognized in the consolidated financial statements:

- (i) Business combinations and asset acquisitions – The REIT, in general, acquires investment properties as asset acquisitions but at the time of the acquisition also considers whether the acquisition represents the acquisition of a business. The REIT accounts for an acquisition as a

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

business combination where an integrated set of activities is acquired in addition to the investment property. Consideration is made of the extent to which significant processes are acquired and, in particular, the extent of ancillary services provided by the subsidiary (e.g., maintenance, cleaning, security, bookkeeping, etc.). The significance of any process is judged with reference to the guidance in IAS 40 about ancillary services.

- (ii) Leases – The REIT uses judgment in determining whether certain leases, in particular those tenant leases with long contractual terms where the lessee is the sole tenant, are operating or finance leases. The REIT has determined that all of its leases are operating leases.
- (iii) Income taxes – Under current tax legislation, a real estate investment trust is not liable to pay Canadian income taxes provided that its taxable income is fully distributed to unitholders during the year. The REIT is a real estate investment trust if it meets the REIT Conditions. The REIT has reviewed the REIT Conditions and has assessed their interpretation and application to the REITs assets and revenue, and it has determined that it qualifies as a real estate investment trust.

The REIT expects to qualify as a real estate investment trust under the Income Tax Act (Canada); however, should it no longer qualify it would not be able to flow through its taxable income to unitholders and the REIT would, therefore, be subject to tax.

- (iv) Joint arrangements – The REIT makes judgments in determining whether a joint arrangement structured through a separate vehicle is a joint operation by assessing the legal form of the separate vehicle, including the determination on whether the REIT's interest represents an interest in the assets and liabilities (joint operation) or in its net assets (a joint venture).

Estimates and assumptions

In the process of applying the REIT's accounting policies, management has made the following estimates and assumptions which have the most significant effect on the amounts recognized in the consolidated financial statements:

- (i) Valuation of investment properties – Investment properties are presented at fair value at the reporting date. Currently, any change in fair value is determined by management and by independent real estate valuation experts using recognized valuation techniques. The techniques used by management and by independent real estate valuation experts comprise of the discounted cash flow and direct capitalization methods of valuation and includes estimating, among other things, capitalization rates and future net operating income and discount rates and future cash flows applicable to investment properties, respectively.
- (ii) Fair value of financial instruments – Where the fair value of financial assets and financial liabilities recorded in the consolidated statement of financial position cannot be derived from active markets, they are determined using valuation techniques including the discounted cash flow model. Inputs to these models are taken from observable markets where possible, but where this is not feasible a degree of judgment is required in establishing fair values. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value in the consolidated financial statements.
- (iii) Contractual rents and other tenant receivables presented net of an allowance for doubtful accounts – Estimates and assumptions used in determining the allowance for doubtful accounts, include the historical credit loss experience adjusted for current conditions and forward-looking information including future expectations of likely default events based on actual or expected insolvency filings, likely deferrals of payments due and potential abatements to be granted by the REIT through tenant negotiations or under government programs, and macroeconomic conditions.
- (iv) Derivative financial instruments – Derivative financial instruments, including embedded derivatives and interest rate swap, are recognized on the consolidated statements of financial position at fair value. Subsequent to initial recognition, the derivatives are measured at fair value. The fair values of the derivative instruments are based on forward rates considering the market price, rate of interest and volatility. Changes in estimated fair value at each reporting date are included in the consolidated statements of net income and comprehensive income. Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related and if the entire contract is not measured at fair value with changes in fair value recognized in the consolidated statements of net income and comprehensive income.

5. Future applicable accounting standards

In April 2024, the IASB issued IFRS 18, "Presentation and Disclosure in Financial Statements," which sets out the overall requirements for presentation and disclosures in the consolidated financial statements. The new standard will replace IAS 1. Although much of the substance of IAS 1 will carry over into the new standard, the new standard will require presentation of separate categories of income and expense for operating, investing, and financing activities with prescribed subtotals for each new category. The new standard will also require management-defined performance measures to be explained and included in a separate note within the consolidated financial statements. The new standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements, and requires retrospective application. The REIT is currently assessing the impact of the new standard.

In May 2024, the IASB issued amendments to IFRS 9 and IFRS 7, "Financial Instrument Disclosures". The amendments clarify the timing of recognition and derecognition for a financial asset or financial liability, including clarifying that a financial liability is derecognized on the settlement date. Further, the amendments introduce an accounting policy choice to derecognize financial liabilities settled using an electronic payment system before the settlement date, if specific conditions are met. The amendments also require additional disclosures for financial instruments with contingent features and investments in equity instruments classified at fair value through other comprehensive income. These amendments are effective for annual

PRO REAL ESTATE INVESTMENT TRUST

CAD \$ thousands except per unit and per unit amounts

reporting periods beginning on or after January 1, 2026. The REIT is assessing the potential impact but does not anticipate any material impact to the consolidated financial statements.

6. Investment property acquisitions

On June 26, 2025, the REIT acquired a portfolio of six industrial properties in Winnipeg, Manitoba from Parkit Enterprise Inc. ("Parkit") (TSX.V:PKT) for an aggregate purchase price of approximately \$96,500 (the "Transaction"). The \$96,500 purchase price (excluding closing costs) was satisfied with cash from a new \$63,000 3-year secured non-revolving credit facility at a fixed swap rate of approximately 4.54% and the issuance at a price of \$6.20 per unit of \$40,000 of Units and Class B LP Units, in aggregate, to Parkit. Approximately \$3,200 of the non-revolving credit facility was used to repay a portion of indebtedness outstanding under the REIT's existing revolving credit facility and \$5,500 for general business purposes. The Units and Class B LP Units issued in connection with the Transaction are subject to a contractual lock-up period of 18 months following the closing of the Transaction during which Parkit may not transfer, sell or otherwise dispose of these Units and Class B LP Units, subject to certain limited exceptions.

On December 17, 2025, the REIT acquired one additional industrial property in Winnipeg, Manitoba from Parkit for a purchase price of approximately \$5,350 (the "Second Transaction"). The \$5,350 purchase price (excluding closing costs) was satisfied with \$3,175 of cash from the increase on the 3-year secured non-revolving credit facility at an updated fixed swap rate of approximately 4.55% and the issuance at a price of \$6.20 per unit of \$2,140 of Units to Parkit.

Since the appointment of a nominee on the Board of Trustees of the REIT after the closing of the Transaction, Parkit is considered a related party of the REIT by virtue of a common director who also serves as Chair of Parkit's Board of Directors

During the year ended December 31, 2025 the REIT acquired the following investment properties:

Investment Property	Location	Property Type	Acquisition Date	Interest Acquired
1725 Inkster Boulevard	Winnipeg, Manitoba	Industrial	June 26, 2025	100%
1345 Redwood Avenue	Winnipeg, Manitoba	Industrial	June 26, 2025	100%

Straight-line rent adjustment	1,079	477
Fair value adjustment	11,294	(24,519)
Balance, end of year	\$ 1,051,660	\$ 975,319

The fair value is determined on the basis of valuations made by management and by independent external appraisers having appropriate professional qualifications, using recognized valuation techniques, comprising of the discounted cash flow and direct capitalization methods. These methods require certain key assumptions, including rental income, market rents, operating expenses, vacancies, inflation rates, capitalization rates, terminal capitalization rates and discount rates. These rates are determined for each property based on available market information related to the sale of similar buildings within the same geographical locations.

(1) Gross proceeds exclude closing costs.

Investment properties are independently appraised at the time of acquisition. In addition, the REIT engages independent external appraisers to appraise its investment properties such that the majority of the portfolio is independently appraised at least once over a two year period. During the year ended December 31, 2025, properties externally appraised represented a total fair value of \$548,370 (for the year ended December 31, 2024 – \$694,604). The fair value of the remaining portfolio of investment properties was reviewed internally by the REIT by individuals who are knowledgeable and have industry experience in real estate valuations with support from external appraisers, using similar assumptions and valuation principles as used by external appraisers.

Significant assumptions made to determine the fair value of the investment properties are set out as follows:

At December 31, 2025	Industrial	Retail	Office
Capitalization rate	5.8% - 9.0%	6.0% - 9.0%	7.3% - 8.0%
Terminal capitalization rate	6.0% - 7.8%	6.3% - 10.0%	7.3% - 8.3%
Discount rate	6.5% - 9.0%	7.0% - 10.0%	8.0% - 9.0%

At December 31, 2024	Industrial	Retail	Office
Capitalization rate	6.0% - 7.8%	6.0% - 10.0%	7.3% - 8.3%
Terminal capitalization rate	6.3% - 7.8%	6.3% - 10.0%	7.3% - 8.3%
Discount rate	7.0% - 9.3%	7.0% - 10.0%	7.8% - 9.3%

Weighted Average Capitalization Rate ⁽¹⁾	December 31 2025	December 31 2024
Industrial	6.7 %	6.6 %
Retail	7.1 %	7.2 %
Office	7.8 %	7.4 %
Total portfolio	6.7 %	6.7 %

(1) Weighted average capitalization rate is based on the fair values of the investment properties.

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

CAD \$ thousands except per unit and per unit amounts

The fair values of the REIT's investment properties are sensitive to changes in the key valuation assumptions. Changes in the capitalization rates, terminal capitalization rates and discount rates would result in a change to the fair value of the REIT's investment properties as set out in the following table:

	Impact of 25-basis points			
	December 31, 2025		December 31, 2024	
	Increase	Decrease	Increase	Decrease
Capitalization rate	\$ (37,213)	\$ 40,047	\$ (33,420)	\$ 35,879
Terminal capitalization rate	\$ (21,077)	\$ 22,930	\$ (20,594)	\$ 22,281
Discount rate	\$ (22,134)	\$ 22,934	\$ (19,513)	\$ 19,994

8. Investment in joint operations

The REIT is a co-owner in several investment properties that are subject to joint control based on the REIT's decision-making authority with regard to the relevant activities of the investment properties. The REIT recognizes its rights to and obligations for the assets, liabilities, revenue and expenses of these joint operations in the respective lines in the consolidated financial statements. The following table outlines the REIT's ownership interest:

Mortgages and term loan (current)	(167,414)	(64,119)
Non-current mortgages and term loan	\$ 242,131	\$ 362,723

As at December 31, 2025, the mortgages payable of \$399,975 (December 31, 2024 - \$417,137) had a weighted average interest rate of approximately 3.82% (December 31, 2024 - 3.90%) and comprised \$393,802 (December 31, 2024 - \$417,137) at fixed interest rates and \$6,173 (December 31, 2024 - \$Nil) at a variable interest rate at the bank prime rate plus 0.5%. The mortgages payable are secured by first charges on certain investment properties with a fair value of approximately \$685,530 at December 31, 2025 (December 31, 2024 - \$854,279).

On June 29, 2023, the REIT received a \$10,000 three year term loan at a rate of 6.79%. Proceeds of the term loan were used to partially repay the revolving credit facility. The term loan is secured by second charges on certain investment properties with a fair value of approximately \$115,840 at December 31, 2025 (December 31, 2024 - \$114,290).

On March 28, 2025, the REIT received \$12,000 in incremental financing with respect to an Ontario industrial property from its current lender at an annual rate of 4.98% and maturing in September 2026, consistent with the original mortgage maturity.

During the year ended December 31, 2025, the REIT repaid approximately \$38,593 in mortgages prior to their maturity dates resulting in yield maintenance costs of \$1,043.

Interest expense was \$16,838 for the year ended December 31, 2025 (\$17,169 for the year ended December 31, 2024). The REIT is required under the terms of specific debt agreements to maintain debt to service coverage ratios. The REIT was in compliance at December 31, 2025.

Mortgages and term loan are repayable no later than 2033 as follows:

	Principal instalments	Principal maturities	Total Principal Payable	% of Total Principal	Weighted Average Interest Rate on Maturity
2026	\$ 10,292	\$ 157,121	\$ 167,413	40.8 %	3.7 %
2027	6,734	48,687	55,421	13.5 %	4.8 %

Convertible Debentures less issuance costs				\$ 32,352	\$ 31,313
Derivative financial instrument				2,039	513
Total				\$ 34,391	\$ 31,826

On May 26, 2023, the REIT issued \$35,000 aggregate principal amount of convertible unsecured subordinated debentures bearing 8.00% interest per annum payable semi-annually and maturing on June 30, 2028 (the "Maturity Date"), in the amount of \$35,000. The interest is payable in arrears on June 30 and December 31 each year, commencing December 31, 2023. The Convertible Debentures are convertible at the holder's option at any time prior to the close of business on the earlier of the business day immediately preceding the Maturity Date and the business day immediately preceding the date fixed for redemption of the Convertible Debentures, as applicable, at a conversion price of \$7.00 per Unit before the Maturity Date.

These Convertible Debentures are not redeemable before June 30, 2026 by the REIT. On and from June 30, 2026 and prior to June 30, 2027, the Convertible Debentures may be redeemed by the REIT, in whole at any time, or in part from time to time, at a redemption price equal to their principal amount plus accrued and unpaid interest, provided that the volume weighted average trading price of the Units on the TSX during a period of 20 consecutive trading days ending on the fifth trading day prior to the date on which an advanced notice of redemption (the "Current Market Price") is given is at least 125% of the conversion price. On and from June 30, 2027 and prior to the Maturity Date, the Convertible Debentures may be redeemed by the REIT, in whole at any time, or in part from time to time, at a redemption price equal to their principal amount plus accrued and unpaid interest.

Subject to regulatory approvals and other conditions, the REIT may, at its option, elect to satisfy its obligation to pay the principal amount of Convertible Debentures on redemption or at the Maturity Date, in whole or in part, by delivering the number of freely tradable Units obtained by dividing the principal amount of the Convertible Debentures being repaid by 95% of the Current Market Price on the date of redemption or on the Maturity Date.

Upon issuance, the directly attributed costs were allocated to the component and derivative financial instrument in proportion to the initial carrying costs.

	December 31 2025	December 31 2024
Balance, beginning of year	\$ 31,826	\$ 31,637
Accretion expense - Convertible Debentures	379	375

Amortization of issuance costs	666	660
Fair value adjustment of derivative financial instrument	1,527	(839)
Balance, end of year	\$ 34,391	\$ 31,826

(c) Revolving credit facility

The REIT has a revolving credit facility of \$60,000 which bears interest at prime plus 100.0 basis points or CORRA loan rate plus 200.0 basis points. The credit facility is secured by a pool of first and second charges on certain investment properties with a fair value of approximately \$114,330 at December 31, 2025 (December 31, 2024 - \$114,370).

	December 31, 2025	December 31 2024
Revolving credit facility	\$ 15,000	\$ 40,000
Financing costs	(261)	(97)
Total	\$ 14,739	\$ 39,903

The REIT is required under the credit facility agreement to maintain certain financial ratios at the end of each reporting period and a minimum unitholders' equity at all times. At December 31, 2025, the REIT was compliant with all financial covenants under the revolving credit facility.

(d) Non-revolving credit facility

On June 26, 2025, the REIT received a secured non-revolving three-year credit facility (with two successive one-year renewal options) of \$63,000 which bears interest at CORRA loan rate plus 175.0 basis points and matures June 2028. The REIT fixed the interest rate at 4.54% per annum by entering into

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

a five year fixed interest rate swap agreement with a major Canadian financial institution. On December 17, 2025, the REIT increased the secured non-revolving credit facility to \$66,478, with a revised fixed interest rate of 4.55% per annum. The swap agreement requires settlement of net interest receivable or payable every 30 days and has been accounted for as a derivative at FVTPL. The non-revolving credit facility is secured by a pool of first charges on certain investment properties with a fair value of approximately \$106,500 at December 31, 2025 (December 31, 2024 - \$Nil).

	December 31 2025 Carrying Value	December 31 2024 Carrying Value
Non-revolving credit facility	\$ 66,478	\$ –
Financing costs	(350)	–
Non-revolving credit facility less financing costs	\$ 66,128	\$ –
Derivative financial instrument - interest rate swap	211	–
Total	\$ 66,339	\$ –

The REIT is required under the non-revolving credit facility agreement to maintain certain financial ratios at the end of each reporting period and a minimum unitholders' equity at all times. At December 31, 2025, the REIT was compliant with all financial covenants under the revolving credit facility.

11. Class B LP Units

	December 31, 2025		December 31, 2024	
	Class B LP Units	Amount	Class B LP Units	Amount
Outstanding, beginning of year	1,197,774	\$ 6,288	1,354,231	\$ 6,459

Fair value adjustment	–	2,493	–	619
Outstanding, end of year	3,872,774	\$ 25,366	1,197,774	\$ 6,288

The Class B LP Units are exchangeable into Units on a one-for-one basis at any time at the option of the holder. During the year ended December 31, 2025, Nil Class B LP Units in issue were exchanged into Units (156,457 Class B LP Units in issue were exchanged into Units for the year ended December 31, 2024).

On June 26, 2025, the REIT issued 2,675,000 Class B LP Units at a price of \$6.20 per Class B LP Unit to Parkit for total purchase consideration of \$16,585 in connection with the Transaction (note 6).

The Class B LP Units are entitled to distributions equal to distributions declared on Units, on a one-to-one basis. Distributions on Class B LP Units are recognized in the statements of net income and comprehensive income when declared. Distributions of \$0.4500 per Class B LP Unit were declared during the year ended December 31, 2025 (\$0.4500 for the year ended December 31, 2024).

Deferred Units settled in Units	-	(162)
At fair value, end of year	\$ 10,015	\$ 6,798

The REIT has adopted a long-term incentive plan which provides for the grant of DUs and RUs to directors, employees, trustees and consultants of the REIT and its subsidiaries. The maximum number of units permitted to be issued under the long-term incentive plan is 5,904,780.

Each RU represents the right to receive one Unit upon vesting of the RU. Vesting of the RUs will occur in full at the end of a three year period as follows: one-third of the RUs granted in any year will vest at the start of the fiscal year immediately following the grant (in this paragraph, the "initial vesting date"), subject to provisions for earlier vesting upon the occurrence of certain events; one-third will vest on the first anniversary of the initial vesting date; the final one-third will vest on the 2nd anniversary of the initial vesting period. Upon vesting of the RUs the holder of the RUs will receive one Unit in respect of each vested RU.

Each DU represents the right to receive one Unit upon the holder of the DU ceasing to be employed by the REIT, provided that the DU is vested (or is deemed to be vested) at such time. Vesting of the DUs for the trustees will occur in full at the start of the fiscal year immediately following the grant. Vesting of the DUs for the directors, employees and consultants of the REIT will occur in full at the end of a three year period as follows: one-third of the DUs granted in any year will vest at the start of the fiscal year immediately following the grant (in this paragraph, the "initial vesting date"), subject to provisions for earlier vesting upon the occurrence of certain events; one-third will vest on the first anniversary of the initial vesting date; the final one-third will vest on the 2nd anniversary of the initial vesting date.

On January 1, 2024, the REIT settled 93,534 RUs in cash at a price of \$4.72 per RU for an aggregate settlement value of \$465, including other directly related costs of \$23. The settlement value was based on the 5-day volume weighted average trading price ("VWAP") of the Units on the TSX prior to settlement.

On March 22, 2024, the REIT settled 31,471 DUs in exchange for 31,471 Units for an aggregate value of \$162 (see note 14). The settlement value was based on the 5-day VWAP prior to settlement.

On November 1, 2024, the REIT cancelled 116 DUs and 365 RUs related to the departure of an employee of the REIT. The 116 DUs and 365 RUs that were cancelled were not vested.

PRO REAL ESTATE INVESTMENT TRUST

CAD \$ thousands except per unit and per unit amounts

On December 19, 2024, the REIT settled 54,570 DUs and 4,713 RUs in cash at price of \$5.51 per DU and RU for an aggregate settlement value of \$341, including other directly related costs of \$14. The settlement value was based on the 5-day VWAP prior to settlement.

On January 1, 2025, the REIT settled 113,824 RUs in cash at a price of \$5.21 per RU for an aggregate settlement value of \$625, including other directly related costs of \$32. The settlement value was based on the 5-day VWAP prior to settlement.

On January 27, 2025, the REIT paid cash for the settlement value of 28,508 DUs that were settled on December 1, 2024. The DUs were settled at a price of \$5.62 per DU for an aggregate settlement value of \$160. The settlement value was based on the 5-day VWAP prior to settlement.

For the year ended December 31, 2025, 255,064 DUs and 154,960 RUs were granted at an average unit price of \$5.48 and \$5.38 respectively. For the year ended December 31, 2024, 206,059 DUs and 143,824 RUs were granted at an average unit price of \$5.34 and \$5.33 respectively.

For the year ended December 31, 2025, 240,704 DUs and 122,778 RUs were granted to Trustees and key management personnel. For the year ended December 31, 2024, 192,426 DUs and 119,339 RUs were granted to Trustees and key management personnel.

Less: issue costs	-	(906)
At December 31, 2025	63,558,909	\$ 389,758

The REIT is authorized to issue an unlimited number of Units and an unlimited number of special voting units (the "Special Voting Units"). Each Special Voting Unit confers the right to one vote at any meeting of unitholders and to participate pro rata in all distributions by the REIT and, in the event of termination or winding-up of the REIT, in the net assets of the REIT. The Special Voting Units have no par value. The Board of Trustees of the REIT (the "Trustees") has discretion in respect to the timing and amounts of distributions.

Units are redeemable at any time, in whole or in part, on demand by the unitholders. Upon receipt of the redemption notice by the REIT, all rights to and under the Units tendered for redemption shall cease and the holder thereof shall be entitled to receive a price per Unit ("Redemption Price"), as determined by a formula outlined in the Declaration of Trust, which provides that unitholders shall be entitled to receive a price per Unit equal to the lesser of:

- 90% of the "market price" of the Units on the TSX or market on which the Units are listed or quoted on the trading day prior to the date on which the Units were surrendered for redemption; and
- 100% of the "closing market price" on the TSX or market or on which the Units are listed or quoted for trading on the redemption date.

The Redemption Price will be paid in accordance with the conditions provided for in the Declaration of Trust.

The total amount payable by the REIT, in respect of any Units surrendered for redemption during any calendar month, shall not exceed \$50 unless waived at the discretion of the Trustees and be satisfied by way of a cash payment in Canadian dollars within 30 days after the end of the calendar month in which the Units were tendered for redemption. To the extent the Redemption Price payable in respect of Units surrendered for redemption exceeds \$50 in any given month unless waived at the discretion of the Trustees, such excess will be redeemed for cash, and by a distribution in specie of assets held by the REIT on a pro rata basis.

Special Voting Units have no economic entitlement in the REIT, but entitle the holder to one vote per Special Voting Unit at any meeting of the Unitholders of the REIT. Special Voting Units may only be issued in connection with or in relation to Class B LP Units, for the purpose of providing voting

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

rights with respect to the REIT to the holders of Class B LP Units. A Special Voting Unit will be issued in tandem with each Class B LP Unit issued. The Class B LP Units are entitled only to receive distributions equal to those provided to holders of Units. The Class B LP Units are indirectly exchangeable on a one-for-one basis for Units at any time at the option of their holder, unless the exchange would jeopardize the REIT's status as a "mutual fund trust" under the Income Tax Act (Canada). In addition, PRLP will be entitled to require the redemption of the Class B LP Units in certain specified circumstances. The Class B LP Units are presented as a financial liability.

On March 22, 2024, the REIT settled 31,471 DUs in exchange for 31,471 Units for an aggregate value of \$162 (see note 12). The settlement value was based on the 5-day VWAP prior to settlement.

On June 26, 2025, the REIT issued 3,776,613 Units from treasury at a price of \$6.20 per Unit to Parkit for a total purchase consideration of \$23,415 in connection with the Transaction (note 6). Directly related expenses of approximately \$906 were recorded as a reduction of unitholders' equity. Concurrent with the closing of the Transaction, the REIT and Parkit entered into an investor rights agreement providing for, among other things, certain lock-up and standstill provisions, pre-emptive and registration rights, as well as the right for Parkit to nominate one trustee to the REIT's board.

On December 17, 2025, the REIT issued 345,161 Units from treasury at a price of \$6.20 per Unit to Parkit for a total purchase consideration of \$2,140 in connection with the Second Transaction (note 6).

Distribution reinvestment plan

The REIT has implemented a distribution reinvestment plan ("DRIP") pursuant to which holders of Units or Class B LP Units may elect to have their cash distributions of the REIT or PRLP automatically reinvested in additional Units at a 3% discount to the weighted average closing price of the Units for the last five trading days preceding the applicable distribution payment date on which trades of the Units were recorded. Cash undistributed by the REIT upon the issuance of additional Units under the DRIP will be invested in the REIT to be used for future property acquisitions, capital improvements and working capital. Unitholders resident outside of Canada will not be entitled to participate in the DRIP. Upon ceasing to be a resident of Canada, a unitholder must terminate the unitholder's participation in the DRIP.

In response to the stock market volatility caused by the COVID-19 pandemic, the REIT suspended its DRIP, effective April 22, 2020. The DRIP will remain suspended until further notice and distributions of the REIT will be paid only in cash. Upon reinstatement of the DRIP, plan participants enrolled in the DRIP at the time of its suspension and who remain enrolled at the time of its reinstatement will automatically resume participation in the DRIP.

15. Revenue

The REIT has entered into leases with tenants on its investment property portfolio. Commercial property leases typically have initial lease terms ranging between five and twenty years with periodic upward revision of the rental charge according to prevailing market conditions.

	December 31 2025	December 31 2024
Future minimum rentals receivable under operating leases		
Within one year	\$ 59,154	\$ 57,470
Between one and five years	159,497	149,982
After five years	71,036	67,787
	\$ 289,687	\$ 275,239

The REIT's property revenue is made up of the following significant categories:

	Year Ended December 31 2025	Year Ended December 31 2024
Base rent	\$ 60,665	\$ 58,024
Recoverable operating expenses and realty taxes	42,357	40,712
Straight-line rent	1,079	477
	\$ 104,101	\$ 99,213

16. Segmented disclosure

The REIT's segments include three classifications of investment properties – Industrial, Retail, and Office. All of the REIT's activities are located in one geographical segment – Canada. The accounting policies followed by each segment are the same as those disclosed in Note 3. Operating performance is evaluated by the REIT's management primarily based on net operating income, which is defined as property revenue less property operating expenses. General and administrative expenses, depreciation and amortization, interest and financing costs are not allocated to operating segments. Segment assets include investment properties; segment liabilities include mortgages attributable to specific segments, but excludes the REIT's term loan, credit facilities and their respective unamortized financing costs. Other assets and liabilities are not attributed to operating segments.

17. Supplemental comprehensive income information

Property operating expenses include property taxes, utility costs, repairs and maintenance expenses and other costs directly associated with the operation and leasing of investment properties to tenants.

General and administrative expenses include salaries and benefits, corporate expenses, office expenses, legal and professional fees, and other overhead expenses which are indirectly associated with the operation and leasing of investment properties.

The following table provides an analysis of total interest and financing costs:

	Year Ended December 31 2025	Year Ended December 31 2024
Interest and financing costs		
Amortization of financing costs	\$ 1,619	\$ 1,432
Accretion expense - Convertible Debentures	379	375
Other interest and financing costs	22,547	21,366
	\$ 24,545	\$ 23,173

18. Other income and other expenses

Further to the acquisition of the assets of Compass Commercial Realty Limited on June 27, 2018, the REIT records revenues ("other income") as well as relevant expenses ("other expenses") not related to the properties owned by the REIT in the consolidated statements of net income and comprehensive income as follows:

	Year Ended December 31 2025	Year Ended December 31 2024
Other income	\$ 4,171	\$ 4,407
Other expenses	\$ (2,209)	\$ (2,379)

(1) Debt is defined for this purpose as mortgages, term loan, Convertible Debentures, Class B LP Units, and long-term incentive plan.

20. Key management and trustee compensation

Key management personnel are those individuals having authority and responsibility for planning, directing and controlling the activities of the REIT, directly or indirectly. The REIT's key management personnel include the President and Chief Executive Officer, the Chief Financial Officer and Secretary and Senior Vice President, Property Management. In addition, the Trustees have oversight responsibility for the REIT. Compensation of key management and trustees is set out in the following table:

	Year Ended December 31 2025	Year Ended December 31 2024
Salaries and benefits	\$ 1,778	\$ 1,780
Long-term incentive plan - RU and DUs settled in cash	513	395
Long-term incentive plan – Issuance of DUs and RUs	1,979	1,661
Total	\$ 4,270	\$ 3,836

21. Financial instruments

The REIT does not acquire, hold or issue derivative financial instruments for trading purposes. The following table presents the classification, measurement subsequent to initial recognition, carrying values and fair values (where applicable) of financial assets and liabilities.

Classification	Measurement	Carrying Value December 31 2025	Fair Value December 31 2025	Carrying Value December 31 2024	Fair Value December 31 2024
Financial Assets					
Cash (a)	Amortized cost	\$ 13,672	\$ 13,672	\$ 9,069	\$ 9,069
Receivables and other excluding prepaid expenses, deposits and other receivables (a)	Amortized cost	1,881	1,881	3,570	3,570
		\$ 15,553	\$ 15,553	\$ 12,639	\$ 12,639
Financial Liabilities at Fair Value Through Profit and Loss					
Class B LP Units	Fair value (L2)	\$ 25,366	\$ 25,366	\$ 6,288	\$ 6,288
Long-term incentive plan	Fair value (L2)	10,015	10,015	6,798	6,798
Derivative financial instrument (b)	Fair value (L3)	2,039	2,039	513	513
Derivative financial instrument (c)	Fair value (L2)	211	211	–	–
		\$ 37,631	\$ 37,631	\$ 13,599	\$ 13,599
Financial Liabilities					
Accounts payable and other liabilities (a)	Amortized cost	\$ 17,121	\$ 17,121	\$ 19,184	\$ 19,184
Revolving credit facility (a)	Amortized cost	14,739	14,739	39,903	39,903
Non-revolving credit facility (d)	Amortized cost	66,128	66,719	–	–
Distributions payable (a)	Amortized cost	2,529	2,529	2,274	2,274
Mortgages and term loan (d)	Amortized cost	409,545	409,910	426,842	417,560
Convertible Debentures (e)	Amortized cost	32,352	37,107	31,313	35,700
		\$542,414	\$548,125	\$519,516	\$ 514,621

- (a) Short-term financial instruments, comprising cash, accounts receivable, accounts payable and other liabilities, revolving credit facility and distributions payable are carried at amortized cost which, due to their short-term nature, approximates their fair value.
- (b) Derivative financial instrument fair value is based on forward rates considering the market price, rate of interest and volatility and takes into account the credit risk of the financial instrument (Level 3). Such fair value estimates are not necessarily indicative of the amounts the REIT might pay or receive in actual market transactions.
- (c) Derivative financial instrument - Interest rate swap fair value measurement is valued by qualified independent valuation professionals based on the present value of the estimated future cash flows determined using observable yield curves.
- (d) Non-revolving credit facility and mortgages and term loan are a long-term financial instrument. The fair value of the non-revolving credit facility and mortgages and the term loan are based upon discounted future cash flows using discount rates, adjusted for the REIT's own credit risk, that reflect current market conditions for instruments with similar terms and risks. Such fair value estimates are not necessarily indicative of the amounts the REIT might pay or receive in actual market transactions.
- (e) Convertible Debentures are a current financial liability. The fair value of Convertible Debentures includes the conversion option and is based on the TSX trading price at the reporting date (Level 1).

The fair value of the Class B LP Units and long-term incentive plan are estimated based on the market trading prices of the Units (Level 2).

22. Risk management

The REIT's principal financial liabilities are loans and borrowings. The main purpose of the loans and borrowings is to finance the acquisition and development of the REIT's property portfolio. The REIT has tenants and other receivables, accounts payable and other liabilities and cash that arise directly from its operations. In the normal course of its business, the REIT is exposed to market risk, credit risk and liquidity risk that can affect its operating performance.

The REIT's senior management oversees the management of these risks and the Board of Trustees reviews and approves policies for managing each of these risks which are summarized below.

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

Liquidity risk

Liquidity risk is the risk that the REIT will encounter difficulty meeting its obligations associated with the maturity of financial obligations. The REIT's financial condition and results of operations could be adversely affected if it were not able to obtain appropriate levels of financing. Liquidity risk also relates to the potential required early retirement of debt.

Management's strategy to managing liquidity risk is to ensure, to the extent possible, that it will always have sufficient financial assets to meet its financial liabilities as they fall due, by forecasting cash flows from operations and anticipated investing and financing activities. Wherever possible, the REIT enters into long-term leases with creditworthy tenants which assist in maintaining a predictable cash flow. Management's policy is to ensure adequate funding is available from operations, established lending facilities and other sources, as required.

The following table presents the REIT's contractual obligations at December 31, 2025:

	Year					
	2026	2027	2028	2029	2030	Thereafter
Mortgages and term loan principal instalments	\$ 10,292	\$ 6,734	\$ 5,995	\$ 4,080	\$ 2,617	\$ 1,008
Mortgages and term loan principal maturities	157,121	48,687	59,781	36,626	36,565	41,178
Mortgages and term loan interest	13,500	8,600	6,658	4,524	2,559	922
Convertible Debentures	–	–	35,000	–	–	–
Interest on Convertible Debentures	2,800	2,800	1,400	–	–	–
Revolving credit facility	15,000	–	–	–	–	–
Non-revolving credit facility	–	–	66,478	–	–	–
Interest on non-revolving credit facility	3,025	3,025	3,016	–	–	–
Accounts payable and other liabilities	17,121	–	–	–	–	–
Rent	80	96	100	36	–	–
	\$ 218,939	\$ 69,942	\$ 178,428	\$ 45,266	\$ 41,741	\$ 43,108

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The REIT's financial condition and results of operations could be adversely affected if it were not able to obtain appropriate terms for its financing. Management has determined that any reasonably likely fluctuation in interest rates on floating rate debt would be insignificant to income and comprehensive income as the Convertible Debentures and the majority of the secured debt carry a fixed rate of interest.

The REIT is exposed to interest rate risk as a result of its credit facilities, as the interest rates vary based on the bank's CORRA loan rate. The REIT has managed this risk on the non-revolving credit facility by entering into an interest rate swap agreement for the full value of the facility to effectively convert its floating rate to fixed rate. The REIT has determined that a 1% increase or decrease in interest rates would not have a material impact on these consolidated financial statements.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The REIT's principal assets are commercial properties. Credit risk on accounts receivables comprising tenant receivables of \$1,881 arises from the possibility that tenants may not fulfill their lease obligations. Management mitigates this credit risk by performing credit checks on prospective tenants, having a large diverse tenant base with varying lease expirations, requiring security deposits on high risk tenants and ensuring that a considerable portion of its property income is earned from national and large anchor tenants. Accounts receivable are comprised primarily of current balances owing and the REIT has not experienced any significant receivable write offs. The REIT performs monthly reviews of its receivables and has determined there is no significant provision for doubtful accounts at December 31, 2025. Cash carries minimal risk as all funds are maintained with highly reputable financial institutions.

The REIT applied the ECL model which requires an entity to measure the loss allowance for a financial instrument at an amount equal to the lifetime expected ECL if the credit risk on that financial instrument has increased significantly since initial recognition or at an amount equal to 12-month expected credit losses if the credit risk on that financial instrument has not increased significantly since initial recognition. The REIT uses a provision matrix based on historical credit loss experiences to estimate 12-month expected credit losses as the REIT has deemed the risk of credit loss has not increased significantly for accounts receivable.

Concentration risk

Concentration risk relates to the risk associated with having a significant amount of investment property leased to a single tenant. Concentration risk is mitigated by entering into long-term leases; reviewing the financial stability of the tenant and obtaining security or guarantees where appropriate; and seeking geographic and industry diversity of tenants. The REIT also maintains its assets to a quality standard that would support timely leasing of vacant space. At December 31, 2025, the REIT's largest tenant did not exceed 10% of property revenue.

Environmental risk

As an owner of real estate properties, the REIT is subject to various Canadian federal, provincial and municipal laws relating to environmental matters. These laws could result in liability for the costs of removal and remediation of certain hazardous substances or wastes released or deposited on or in

PRO REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

CAD \$ thousands except per unit and per unit amounts

investment properties, or disposed of at other locations. Failure to remove or remediate such substances, if any, could adversely affect the ability to sell real estate, or to borrow using real estate as collateral, and could potentially result in claims or other proceedings. The REIT is not aware of any material non-compliance with environmental laws at any properties. The REIT is also not aware of any material pending or threatened investigations or actions by environmental regulatory authorities in connection with, or conditions at, properties. The REIT has policies and procedures to review and monitor environmental exposure, and has made, and will continue to make, the necessary capital expenditures for compliance with environmental laws and regulations. Environmental laws and regulations can change rapidly and the REIT may become subject to more stringent environmental laws and regulations in the future. Compliance with stringent environmental laws and regulations could have an adverse effect on the financial condition or results of operations.

23. Capital management

The REIT is free to determine the appropriate level of capital in context with its cash flow requirements, overall business risks and potential business opportunities. As a result of this, the REIT will make adjustments to its capital based on its investment strategies and changes to economic conditions. The REIT's objective is to maintain a combination of short, medium and long-term debt maturities that are appropriate for the overall debt level of its portfolio, taking into account availability of financing and market conditions, and the financial characteristics of each property.

The REIT's other objectives when managing capital on a long-term basis include enhancing the value of the assets and maximizing unit value through the ongoing active management of the REIT's assets, expanding the asset base through acquisitions of additional properties and the re-development of projects which are leased to creditworthy tenants, and generating sufficient returns to provide unitholders with stable and growing cash distributions. The REIT's strategy is driven by policies as set out in the Declaration of Trust, as well as requirements from certain lenders. The requirements of the REIT's operating policies as outlined in the Declaration of Trust include requirements that the REIT will not:

- (a) incur or assume indebtedness on properties in excess of 75% of the property's market value; and
- (b) incur or assume indebtedness which would cause the total indebtedness of the REIT to exceed 70% of Gross Book Value

Gross Book Value is calculated as follows:

	December 31 2025
Total assets, including investment properties stated at fair value	\$ 1,076,937
Accumulated depreciation on property and equipment and intangible assets	4,178
Gross Book Value	1,081,115
Mortgages and term loan ⁽¹⁾	410,684
Convertible Debentures, principal amount	35,000
Revolving credit facility ⁽¹⁾	15,000
Non-revolving credit facility ⁽¹⁾	66,478
Total debt	\$ 527,162
Debt, as above, as a percentage of Gross Book Value	48.8 %

(1) Excluding unamortized financing costs

The REIT was in compliance with the above requirements as well as all required financial covenants at December 31, 2025.

24. Commitment

The REIT has a lease commitment relating to office space which expires on April 30, 2029. The current commitment in respect of this lease is \$80 per annum.

25. Subsequent events

- (a) On January 21, 2026, the REIT announced a cash distribution of \$0.0375 per Unit for the month of January 2026. The distribution was paid on February 17, 2026 to unitholders of record as at January 30, 2026.
- (b) On February 9, 2026, the REIT entered into an agreement to acquire a 100% interest in a newly built industrial building in Moncton, New Brunswick for a total purchase price of \$12,300 (excluding closing costs) representing a going in capitalization rate of approximately 7.0%. The single tenant industrial building comprises approximately 60,057 square feet of gross leasable area. The purchase price is expected to be financed with a draw on the revolving credit facility and cash on hand from the sale completed on February 17, 2026. The closing of the transaction is subject to customary closing conditions.
- (c) On February 17, 2026, the REIT completed the sale of a 50% interest co-ownership non-core industrial property located at 170 Joseph Zatzman Drive in Dartmouth, Nova Scotia totalling approximately 64,898 square feet for gross proceeds of \$11,410 (excluding closing costs). The REIT's 50% share of the gross proceeds was \$5,705 (excluding closing costs). The REIT's 50% share of the net proceeds from the sale are intended to be used to partially finance the pending acquisition noted above.

CAD \$ thousands except per unit and per unit amounts

- (d) On February 19, 2026, the REIT announced a cash distribution of \$0.0375 per Unit for the month of February 2026. The distribution is payable on March 16, 2026 to unitholders of record as at February 27, 2026.
- (e) On February 27, 2026, the REIT entered into a non-binding offer to lease approximately 74,000 square feet of its 176,070-square-foot industrial building located at 6375 Picard Street, in Saint-Hyacinthe, Quebec to a new tenant for a term exceeding 10 years at market rent. Subject to the completion of a binding lease, rent commencement is expected mid-2026.
